Mixed Plastics (Portuguese Experience)

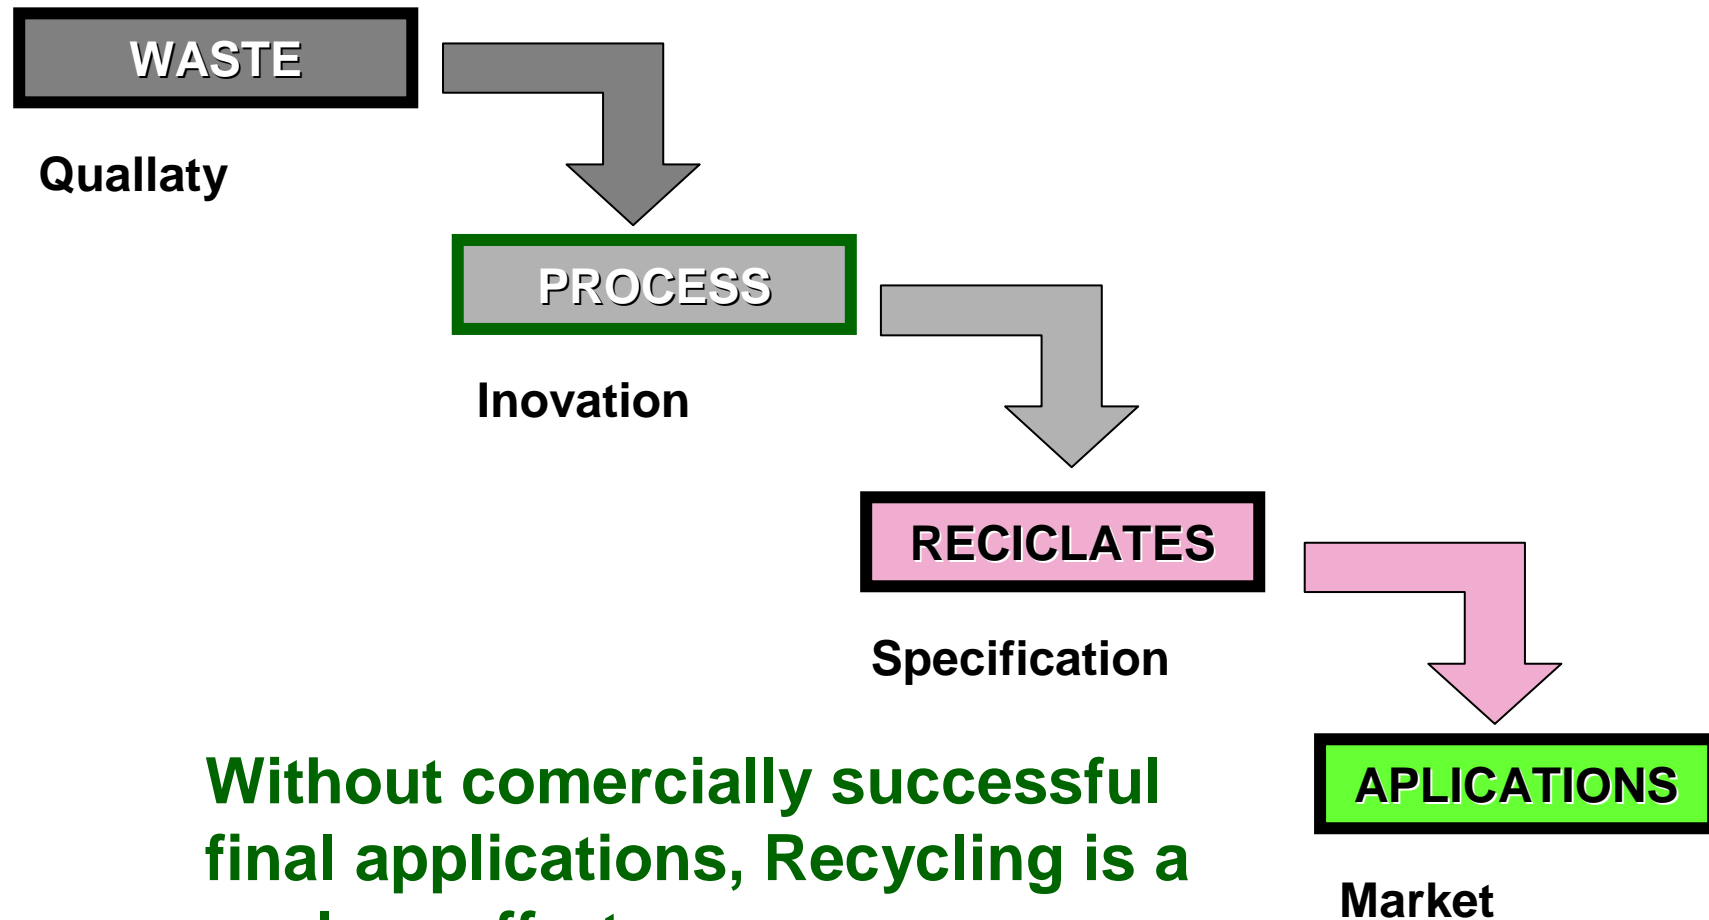

Before:

- One small operation
- Limited applications
- Mixed fraction collected but not recovered

How
Plastval
saw...

... the
mixed
issue?

Mixed Plastics (Portuguese Experience)

Mixed Plastics (Portuguese Experience)

So:

- Licensing process
- R&D project (Plastval, University and SPV support)

Then:

- One small operation →
 - New partner
 - More investment
 - New facilities

- Limited applications →
 - New products
 - Market approach

- Mixed fraction collected but not recovered →
 - Technical Specifications
 - Recovery stream starts

«The wedding day»

- The ideal mix of materials

- The real mix materials (collected)

Mixed Plastics (Portuguese Experience)

Mixing Mixed Perspectives

- Tonnage will go up
- Design and Innovation
- Promotion efforts should continue
